WORK & LEADERSHIP EXPERIENCE

Clikalia, Mexico City, Mexico
Senior .Net Developer   2022 – 2025
Mid-level .Net Developer   2021 – 2022
● I lead scraping team and collaborated with a data area to perform web scraping for properties on sale in Mexico city market, optimizing key information retrieval, working with technologies like .Net Core, Azure, LINQ, MongoDB, CosmosDB, GitHub, CleanArchitecture, Dapper, EntityFramework, SOLID, ASP .NET Core, MinimalAPI, Jira, and web scraping techniques (AgilityPack, Selenium).

Citi Banamex, Mexico City, Mexico
Apps Dev Intermed Programer Analyst   2018 – 2021
Developer Specialist   2016 – 2018
● I worked in the back office of the stock exchange firm developing features throughout the entire software lifecycle, from gathering business requirements to deployment. Utilized C#, Windows Forms, SQL Server, TFS, TeamCity, Udeploy, NUnit, Jira, and Scrum.

Application Hosting, Mexico City, Mexico
.Net Developer / Coldfusion Developer   2015 – 2016
● Contributor of software maintenance and QA for Bimbo's ERP system (multinational food company), as well as developing modules for APH's proprietary CRM system employing tools like Visual Basic, ColdFusion, WindowsForms, SQL Server, TortoiseSVN, HTML5, CSS3, JQuery.

Corporativo ICSI, Mexico City, Mexico
Software Consultant   2013 – 2015
● Contributor in projects for clients like Telmex (telecommunications company) and Auditoría Superior de la Federación ASF (mexican governmental oversight of public resources), using C#, ASP.NET and Oracle Database.

Microsoft, Mexico City, Mexico
Associate Consultant Intern   2012 – 2013
- As an intern at Microsoft, I was part of the consulting team, learning best development practices and the coordinated work of various areas and technologies, as well as participating in the Servicio de Administración Tributaria SAT (mexican governmental tax administration service) project for the digitalization of CFDIs working with C#, WindowsForms, SQL Server.
